

Riesen-Champignon (*Agaricus augustus*)
kann riesig werden, Geruch nach Marzipan/Anis

The image shows two mushrooms that have been sliced lengthwise. The top mushroom is positioned horizontally, showing its stem and gills. The bottom mushroom is also sliced lengthwise but is oriented vertically. Both mushrooms have a thick, white stem and a cap with gills. The gills are a pale yellowish color. The stems are cut into two halves, showing the internal structure. The background is a plain, light-colored surface.

Lamellen jung noch sehr hell

Gilbt leicht im Schnitt
